

## Much Work on Frank Conway Shanandoah Died Saturday Now Underway A Short Illness

A lot of work is being done by R. W. Seelye of Seattle who has a lease on the Shanandoah property at Usk and which is owned by A. A. MacDonald. As a result of this work the property has improved very materially. At the present time a tunnel on the higher levels is being driven and when it is completed the plans are to drop down the hill a considerable distance and drive another tunnel which will be in the neighborhood of 3,000 feet. This will of course give a considerable depth on the vein and will be the main working tunnel. According to the agreement the Shanandoah is to be brought to a producing basis by 1931 and the present program of development will need about that much time. The Shanandoah is a prospect that is well worth the work that is being done on it.

## PRINCE RUPERT NEWS LETTER

Prince Rupert yearns for pay rolls. But ere this devoutly wished for consummation is reached the city must possess more power for industrial purposes. The municipal hydro electric plant has about reached its limit. Meanwhile, the city council is doing some powerful thinking and applying the soft pedal. In a general way, everybody knows the city has been approached, to sell out. This week C. J. Yorath, president of the Midwest Utilities, Calgary, conferred, privately, with the city fathers. What happened? No one knows, save the council and Mr. Yorath. But they go about with sealed lips.

The canned drama holds a fairly secure place in the affections of Prince Rupert, and lovers of the silver screen are wondering if it will be their privilege, in future, to have two places of amusement, instead of one. The new theatre on Third Ave.—and its going to be a real one—will be doing business next month. The town's pioneer playhouse (the Westholme) will shut down for a while, to permit of renovating and general overhauling. The bright eyed optimist says there is room for two. The sodden pessimists squeeze the rain water out of their whiskers and say "it can't be done"—must be ten thousand population first. Well?

Prospects of yet another mill in Rupert. Nothing very definite to be sure but still, reasonable prospects. For the forest silence of the woods around Falls river is being disturbed by the ring of the axe, and the picturesque remarks of lumber jacks. There is a crew at work felling trees for the National Aeroplane Lumber Co. of Keenewee, Ill., which concern controls 9 limits. This is said to be the fore runner of a mill, somewhere on Cain Isl.

Today cars are running from Prince Rupert to Galloway Rapids, nine miles toward the interior. Well built, of decent width and with easy grades, the road winds along the wooded slopes of Mount Oldfield, with here and there a glimpse of blue water. Over on the mainland, survey crews are busy. Car owners and taxi men consider the road an tantalizing foretaste of what they fervently want to see, and travel over—a road that will carry them some

Frank Conway passed away at the Hazelton hospital early on Saturday morning last after having been stricken with complete paralysis some ten days previously. During his last illness he never regained full consciousness and from the first no hope was held out for his recovery.

The deceased was 74 years of age. He was a native son of Canada, his home being at Fredrickton, N. S. and so far as known his only immediate relative is Mrs. Wisely of San Diego, Cal., a sister. She arrived at Hazelton on Monday morning. The deceased came to Northern British Columbia some twenty years ago and was on construction for a number of years. His chief occupation then was building culverts under contract and associated with him was John Gould now of Houston. Frank did pretty well during the early days and after the road had been completed he built and operated the Evelyn hotel at Smithers until a couple of years ago when he sold out and made a trip to see his sister at San Diego. For the past year he had been managing the hotel business at South Hazelton for Mrs. Cuthbert.

Frank Conway was known all along the C. N. R. and he had many friends who regret his passing. He was a member of the Smithers lodge of Native Sons of Canada.

Frank Morris of the B. C. Undertakers, Prince Rupert, had charge of the funeral and on Tuesday night the body was shipped to Smithers where the funeral was held Wednesday afternoon under the auspices of the Smithers Native Sons of Canada.

### TOM MOORE TO CUT POLES

Will Start Camp At Once Old Limit—Getting New Limit Farther Away

Thos. Moore of Kitwanga, secretary of the Upper Skeena Farmer's Institute, was a visitor in Terrace last Friday where he was in conference with the pole men making arrangements for the new season. Mr. Moore has been taking out poles for several years along with his brother, and they are beginning the new season's cut right away. They will complete the cut on the limit they took up last year and expect to then go farther back and start on a bigger limit and one which will mean getting a truck or two to handle the poles between the limit and the railway. He says there is lots of cedar in the country yet.

The first of this week C. W. Dawson sent a sample trout to Nanaimo for identification. He thinks it is an Ontario brown trout. They are caught in Sealy lake occasionally.

where. In other words a road to link up with Terrace and New Hazelton. They won't be happy until they get it.

Tourists and others who have found time to tarry a while at New Hazelton and who compare notes at Prince Rupert while on their way south, often ask why the railway cannot "play up" what they regard as one of the most attractive points between Prince Rupert and Jasper. The peak of Rocher de Boule, for instance, is considered a prize drawing card. All are agreed that the jaded city dwellers can discover in the country around the junction of the Skeena and Bulkley rivers a variety of allurements not easily duplicated.

## Consolidated is Working Near Pacific M. & M.

Fourteen men are now employed on the D. W. Mines on the Seven Sisters mountain under the direction of Mr. Davis who took a bond on the property a little over a year ago. Since that time he has added many more claims to his original holdings and now has something over forty claims. He has been carrying on an extensive surface development campaign all summer in an effort to determine where would be the best place to run a tunnel from which to direct the underground work. He proposes to operate all winter and with as many men as he can find room for. The D. W. Mines (Seven Sister group) is one of the most promising prospects along the Skeena. It is a big thing and it has the values too so that it should be a profitable investment for the owners. Some of the Prince Rupert boys have small interests in the property.

### TENDER FORMAL RECEPTION

Congregation of Hazelton had Social Evening Monday

The Hazelton congregation of the United Church of Canada held a formal reception in the church on Monday night for Rev. T. H. and Mrs. Wright, newly arrived to take charge of the local circuit. The affair took the form of a social evening. Wm. Grant was chairman and among those who took part in the program were the chairman who extended the welcome on behalf of the church board, Dr. H. C. Wrinch on behalf of the people, Mrs. Tomlinson on behalf of the Ladies Aid and Rev. T. D. Proctor on behalf of the Anglican church. Both Rev. and Mrs. Wright made suitable responses. The musical part of the program was provided by Miss Gladys Miller, piano solo; Miss Jean Burns, vocal solo; Mrs. Kincaid, vocal solo; Miss Nichol, vocal solo; Mrs. Tomlinson, a recitation. Mrs. Sealy and Mr. Cameron were accompanists. After the program refreshments were served and a social hour spent.

### FLOWER SHOW AUGUST 23rd.

Judges for the flower show are Mrs. Munro of Smithers and Mrs. (Rev.) Wright of Hazelton. The show will be held on Thursday, August 23rd in Assembly hall, Hazelton. A good program has been arranged. Early in the afternoon Smithers and New Hazelton baseball teams will play their second game this season. At 4.30 the flower show will open and remain open until seven o'clock in the evening. Then a high class concert will be put on and that will be followed by a dance. The prize list for the flower show has been greatly reduced. Only ten classes are provided for cut flowers and these will be made up in proper bouquets and baskets and when anyone buys a bunch of flowers this year they will know that the flowers will keep. The chief attraction at the show will be the various displays of flowers by the several gardeners. These displays will be arranged along the walls and will be judged by the visitors to the show. For this judging there will be three cash prizes of \$15, \$10 and \$5.

Mrs. Geo. Benson left Hazelton for her home in Toronto last week. She was accompanied by her son.

Mrs. R. Taylor, Mrs. L. Hamer and L. F. Murphy of Vanderhoof motored to Hazelton last week end and were guests at the Omineca hotel.

## Kitwancool to Be Resort for Summer Folk

The people of Kitwanga are expecting that the main highway along the Skeena will reach Kitwanga this fall and thus give them road connection with New Hazelton and the outside world. That is not all that they are expecting from that new highway, but will put forth an effort to get some of the tourist traffic. Thos. Moore says that Kitwancool Lake is one of the nicest lakes in the north. It will be a great attraction to summercottagers and to campers. The lake is about 7 miles long and three quarters of a mile wide with an exceptionally fine bathing beach at the north end where the water warms up early in the season. The cold water streams all enter the lake at the south end and the outlet of the lake is also at the south end so that the cold water does not get up to the north end. The road from Kitwanga village to Kitwancool village is in fair shape now and a car can be got over it, but to make a good road would not be a difficult matter, and from the village to the lake is only a few miles with a road already started. The Kitwancool valley is one of the best along the Skeena.

There have been a lot of stories circulated about the bad Indians of the Kitwancool, but these are discounted by the people who know the natives of that valley. The stories were mostly exaggerated, and what was not exaggerated would never have happened had a little diplomacy been used. The Kitwancool Indians are not a bad lot, but they have ideas of what their rights are.

### THE BRIDGE IS CLOSED AGAIN

Public Thought the First Closing was a Joke and Removed the Barri-cades—It is Closed Again

The high level bridge is closed again. It was closed some weeks ago and remained closed for about five and a half days, or until the public thought the joke had been carried far enough. Then the bars across the approaches were removed and the bridge was once more open for traffic.

Apparently some one reported it to Mr. Patrick Philip, the bridge condemnor, for more barricades have been put up, this time cable wires were used, and woe unto anyone who takes those down—if Mr. Philip can catch them.

The bridge is closed. Why it is closed is the wonder. If those engineers who condemned it were asked for the reason, it is doubtful if they could give a straight answer. No reason has ever been given the public, and the public does not believe the bridge to be unsafe, but many do believe that there is a nigger in the woodpile who aspires to gamble in another townsite. In the meantime nothing can be done until the new government takes over the reigns and it will probably be a time after that before anything can be done.

John Gould of Houston arrived in Hazelton last Saturday morning in connection with the death of his old partner and friend, Frank Conway.

Norman Cary of the Hospital staff is holidaying on the coast, a guest of Dr. Large on the medical boat that attends to the canneries in the summer.

Mr. and Mrs. Windt and family of Smithers are holidaying with Mrs. H. E. Thornton.

## J. C. Brady to Visit People in Interior District

J. C. Brady, M. P. for Skeena, has been invited, and has accepted the invitation to open the Smithers Fair the end of this month. He proposes to get away from Prince Rupert about ten days before the fair and visit Vanderhoof, and from there work his way back taking in Endako, Burns Lake, the lakes district, points along the C. N. R. railway to Telkwa and district and after the fair will come to New Hazelton and Hazelton and then continue down the line visiting as many settlements as possible until he gets to Terrace. The object of Mr. Brady's trip is to meet as many of his constituents as possible and to discuss with them the needs of their respective districts, so far as federal affairs are concerned. Mr. Brady asks the people all along the line to have their material prepared and he will discuss matters with them. During his campaign Mr. Brady promised to make this trip and he is carrying out his promise, and if the people get behind him it will make his job that much easier at Ottawa, and the day of "punishment" will soon pass. Mr. Brady is making good at Ottawa even though he is in opposition.

### WILL TAKE A HOLIDAY

After spending six years as supervisor at the Hazelton Hospital, Miss Bolivar left Wednesday morning for her home in the Okanagan where she will take a well earned rest before going on duty again. During her stay here Miss Bolivar gave exceptional service to the sick and to the nurses in training. On Monday evening the nurses made a presentation to Miss Bolivar and wished her every success in what ever new work she might take up in future.

### EXPRESSION OF APPRECIATION

The following letter of appreciation has been received by Mrs. F. A. Goddard, New Hazelton representative on the executive of the W. A. to the I. H.:

"I have been asked by the W. A. to the H. H. members to thank the New Hazelton members for the splendid sum of money sent to the executive in Hazelton. We are able to pay the full amount owing to Dr. Wrinch for the washing machine at the hospital. It will be satisfactory to you all to know that New Hazelton members paid the largest share."

Ed. Hyde returns home this Wednesday evening from a trip to Vancouver and Victoria where he went on departmental business.

Mrs. Frank Morris of Prince Rupert spent a few days in the interior this week.

Mr. and Mrs. Moxley of Prince Rupert spent a day here last week and tried their luck fishing at Hagwilget. They got all they wanted and then called on a number of friends in New Hazelton.

On Tuesday last, August 7th, at the Hazelton hospital, a son was born to Mr. and Mrs. Herbert Heal, Telkwa.

Miss Swanson of Vancouver has accepted a position as supervisor at the Hazelton hospital to succeed Miss R. Bolivar.

The Duke Mining Co., operating the Silver Cup mine, will have four hundred tons of freight to go up the hill before October 1 and after that expect to start hauling ore down at the rate of 850 tons a month.

## Women will know This to be True!

Haven't you found this to be true—that one batch of flour will give you certain results but that the next time you bought the same brand your results would be quite different. Now, the big flour companies employ chemists to see that their flours are kept to a constant standard. Drugs, like flours, may be thoroughly pure but of a variable standard. Think what this means in the effectiveness of your doctor's prescriptions.

Ormes buy their drugs only from manufacturers who guarantee that their products are not only 100 per cent. pure, but that their strength is as unvarying as the daily round of the sun.

## QUICK NEWS

Prairie reports say that seventy-five per cent of the grain is in head. Bulkley farmers will have to hurry up with the hay as considerable grain will soon be ready to cut.

The Institute is not ordering twine owing to reasonable prices being available in Telkwa and Smithers.

W. L. Padden is erecting a warehouse and also an oil house.

The C. N. R. will put in a new loading platform this year.

Mrs. Shepherd and Chris. Biglow have their brother and family from the prairies visiting them at present.

Carl and John have staked a claim on Grouse mountain.

Beatty and Palmer are rustling hay and W. Cocks has contracted for Eric Lemieux's hay crop.

Bob Lamb is helping Carl during the haying season.

Kerr Bros. have been trading horses again while the Chev. is in the hospital. When they finish the hay on Smith and Wilson's they will put up the hay on Walker's place for Frank Morden.

Mrs. Greene leaves for Portland hospital on August 18th.

### GOING TO THE PEACE RIVER

Douglas Lay Will Examine the recent development of the Ferguson Property

The end of this month Douglas Lay, district resident mining engineer, is to start for the Peace River country to examine the recent development work on the Ferguson property and also other properties in that section. So far this season he has had a very busy time and finds that after travelling the district over pretty well and examining many properties, that mining is now pretty well established in the north. This year witnesses the beginning of development of quite a number of properties by the larger mining companies. Several other companies have men in the field. Mr. Lay is satisfied that a year or two will prove his earlier optimistic prophecies in regard to this district.

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, "How Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

### LEASES

For grazing and industrial purpose areas not exceeding 640 acres may be leased by any one person or company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stockowners may form associations for range management. Free, or partially free, per-

## The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, \$78,174,705; Lode Gold, \$130,651,919; Silver, \$86,689,046; Lead, \$121,850,734; Copper, \$221,501,079; Zinc, \$59,508,692; Coal, \$271,294,688; Structural Material and Miscellaneous Minerals, \$53,502,301; making its mineral production to the end of 1927 show an

## Aggregate Value of \$1,048,837,828

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,987; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,608; for five years, 1916-1920, \$189,922,725; for six years, 1921-1926, \$281,915,492; for 1927, \$60,729,358.

## Production Last Ten Years, \$453,266,721

Lode mining has only been in progress for about 25 years, and only about one half of the province has been prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this province are more liberal and the fees lower than those of any other province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties, upon which development work has been done, are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,  
Victoria, British Columbia

Mrs. Thos. Brooks was a guest at on Friday last. Usk last week with Mrs. H. S. Creelman.

Miss Letitia J. Bell left Monday for the coast after having visited her cousins, Mrs. Smith and J. K. Gordon.

The Amsbury mill has been closed down and on Saturday W. H. Watt and family arrived in Terrace after having wound up the season's cut.

W. S. Peterson purchased a Chevrolet from the local agent the first of the week. The race district has many new cars this year—a good indication of local prosperity.

Eric Sampson of Usk was in town

John R. Howard of Smithers was in town on Saturday.

Mrs. McCarthy and Mrs. Hangan of Prince Rupert are spending a short holiday in town.

E. L. Lord of Mount Vernon, Wash., was among the recent visitors.

Mrs. Barnes and Mrs. Wm. Aird of Prince Rupert were among the week end visitors.

Miss Deacon of Vancouver and Mrs. James Farquhar of Prince Rupert are making a visit with the latter's parents, Rev. T. J. and Mrs. Marsh.

## No Gambling Terrace Fair Say Directors

The meeting of the Terrace Fair board held on Friday was only moderately attended, several members being on vacation. H. A. Swain was in the chair and after routine business had been disposed of it was decided to allot a space of fifty square feet to the Northern Exchange of Prince Rupert for a booth. Application was made for five judges for the various exhibits this year, and an application for permission to operate a crown and anchor board at the show was unanimously turned down.

A letter from the secretary of the Prince Rupert Fair asking the board to put up a district exhibit at Prince Rupert show this year was not entertained, several members pointing out that there was a great decrease in the acreage of produce in Terrace area this year, so that it would be difficult to get a good representation of the produce of the district.

The Board of Trade declined to accept the whole responsibility for getting together the produce for a district exhibit at the New Westminster show, but intimated that they would join with the Farmers' Institute and the Fair board in the matter. After discussion it was decided to leave the matter in abeyance.

The secretary reported having received promises of a number of special prizes and it was agreed to run a drive for membership subscriptions during the ensuing fortnight.

A further meeting was arranged for Friday, the 24th.

The Terrace apple crop is pretty good this year, especially the early varieties. Shipments have been made. The cherry crop was badly damaged by rain after they were ready to pick.

## Reforestation!

Much has been said recently about reforestation in British Columbia. The present forest is the result of natural re-forestation when the human hazard was not present to defeat nature.

Natural restocking of cut over lands is now going on, as may be soon almost everywhere, and nature will again re-establish the forests if only fire is kept out.

Prevent Forest Fires

## Announcing the NEW UTILITY TRUCK -another Sensational Chevrolet Value 4 Speeds Forward • 4 Wheel Brakes

NOW Chevrolet presents the New Utility Truck—a low-priced haulage unit embodying every feature of advanced engineering developed through years of experience in commercial car-building and proved by exhaustive testing on the General Motors proving ground!

Typical of the progressive design embodied in this sensational new truck are a four-speed forward transmission, powerful non-locking four-wheel brakes, full ball-bearing steering mechanism, front shock absorber springs, air-bound seat cushions and channel front bumper. In addition, it offers all those basic features which have been so largely instrumental in Chevrolet's tremendous success as the world's largest builder of trucks—rugged rear axle with one-piece banjo-type housing . . . semi-elliptic springs set parallel to the load . . . completely enclosed valve-in-head motor with air cleaner, oil filter and positive action vane type oil pump . . . thermostatic control of water circulation . . . low loading height . . . generous road clearance and countless other features of comparable importance.

Visit your Chevrolet dealer and get a trial-load demonstration of this remarkable new truck! It has been developed to meet the modern conditions of business transportation and body types are available for every type of business.

## Development At Hot Springs Is Satisfactory

The Board of Trade Council meeting held last week was only moderately attended owing to many members being away on vacation.

Mr. J. K. Gordon was in the chair and was supported by Messrs. Sundal, Dover, Burnett, Kirkpatrick, Little, Wiley and the secretary (H. Halliwell).

After the reading of the minutes the secretary reported a continuing demand for the folder recently issued by the Board. A large percentage of the issue had been distributed through the Canadian National Railway and repeat requests were coming in regularly.

The secretary was instructed to communicate with Mr. Pethick, Smithers, with regard to the condition of the roadway north of Leam-to Creek on the Kalum Lake road where a bad curve renders the work of hauling poles extremely difficult.

As several thousand poles are already now in this district it was felt that steps should be taken to make the work of getting out these poles less arduous and dangerous than it is at present.

Another matter of some importance dealt with was the question of the water rights licence at the Lakelse Hot-springs. Excution was taken a year ago to the small amount of development work being carried on at the springs, but the work of J. Bruce Johnson this year was considered satisfactory and it was agreed that the Water Rights Dept. of the Ministry of Lands should be notified that the Board would not raise any objection to the renewal of the licence this year.

A discussion as to the steps to be taken in the event of the Fall Fair Board holding a banquet on Sept. 7th did not arrive at any decision as the banquet was not in fact decided upon.

### POULTRY BUSINESS STARTED

Murdo Smith is going into the egg business on a fairly large scale. He already has quite a flock of birds, but this week expected to receive a shipment of five hundred laying pullets from the south. He has erected a new house for them at his farm and every thing is ready for the birds to start paying dividends. The birds came from the University of B. C. where some of the greatest poultry in the world are raised.

### GETS A DISTRICT AGENCY

J. B. Agar has now been given a district agency by General Motors of Canada. The work done by Mr. Agar the past year has demonstrated his fitness for an agency and has also demonstrated the importance of this district as a consumer of autos. Besides the other sales made this year Mr. Agar has a carload of trucks coming in this month.

## Telkwa Tales

The Round Lake dance was a big success last Friday. There was a big crowd and lots of pep.

Mrs. Smith of Prince Rupert is visiting her son for a couple of weeks.

A daughter was born to Mr. and Mrs. Frank McDonald in the Telkwa nursing home.

There was quite a frost on the 12th of August and many gardens suffered as a consequence.

Mrs. Carruthers visited in Smithers a couple of days and her daughter was a guest of Muriel Boyle.

The Indians are beginning to return from the canneries. They report the fishing as generally poor this year.

## Terrace Notes

At Terrace another room is being added to the high school and two teachers will be employed this coming term. The contract for the addition which is 18 x 24, was awarded to C. H. Thomas and it is to be completed by Sept. 1st.

Capt. Colthurst is now driving a Chev. coach which he purchased last week from the local agent, J. B. Agar.

Miss Dorothy McGumery of Prince Rupert is a guest of Miss Margaret Glass.

Misses Mary Wilson and Bessie Moore left last Wednesday for Anyox to visit with the latter's brother, Mr. Verge Moore.

Mrs. Mead and daughter of Washington, D. C., who has spent the past few weeks with Mrs. Wilson at Remu left Friday for Vancouver.

Mr. and Mrs. L. H. Skinner of Copper City, attended the Board of Trade dance last Friday evening.

Mr. and Mrs. W. C. Sparkes left on Saturday for Vancouver.

Mr. and Mrs. Fulton and family of the Okanagan are guests of Mr. and Mrs. Wm. Fulton at Lakelse.

Clarence Donaldson and Joe Felber, who have spent the last few weeks in the Kalum Lake district, returned to town on Friday last and were guests at the Terrace hotel.

Rev. Prof. Issherwood of Wycliffe College, Toronto, was a guest of Rev. T. J. Marsh a few days last week. He is visiting the graduates of Wycliffe and on Saturday he went to Burns Lake and will then go on to the Peace River country.

Rev. and Mrs. Robinson and son returned from the south last week.

Mrs. Blanche and daughter of Prince Rupert are holidaying at Lakelse lake.

Mrs. John Vigor, who has spent the past few months with her mother in Seattle, returned home Thursday.

Miss Gladys Kenney has taken a position in the office of the Union Oil Co., Prince Rupert.

Mrs. L. H. Kenney and two sons left Thursday for Vancouver where they will spend some time with her mother.

Mr. and Mrs. Cousins have returned to their home in Prince Rupert after spending several weeks at Lakelse.

Mrs. Greig and two daughters spent several days last week at C. R. Gilberts cottage at Lakelse.

Mrs. W. H. Burnett and Mrs. Attre spent last week at the Forestry cabin on Lakelse lake.

Mrs. A. Olson and daughter Agnes were in Prince Rupert last week.

Mr. Peddy, principal of the high school at Prince Rupert left for Victoria on Thursday. His family will remain in Terrace for the rest of the month.

Mr. and Mrs. S. N. Kirkaldy entertained a number of friends on Monday evening last at dinner.

Miss Kells left last Tuesday for Eugene to visit her parents before returning to Seattle. She had been a guest of her sister, Mrs. E. Haugland.

Jack Arkle and Thad Laurie of Usk were in town on Thursday.

R. Dix, J. Jones, W. Warner and J. Ball of Kalum Lake were in town the first of the week.

Mr. Judson made a business trip to Prince Rupert last week and brought

## A BRAVE ATTACK AND A BRAVE DEFENCE

Upper.—The Chateau Frontenac, famous Quebec hostelry, on whose wall a tablet in memory of the soldiers of the Royal Fusiliers has been erected. Lower.—A panorama of the ancient city of Quebec, showing the Chateau Frontenac and the ramparts, taken at the time of the visit of H.M.S. Hood to Canada. The attack against Pres-de-Ville was made along the shore behind the warship. Inset.—A mortar and cannon used in Quebec at the time of the siege by American troops in the War of Independence in 1775-76.

A memorial to an event of outstanding importance in both Canadian and American history, has been erected on the wall of the Chateau Frontenac in Quebec.

Although many thousands of American tourists regularly invade the ancient city and throng the corridors of the great hostelry, it is not often realized that their ancestors once attempted to gain admittance to the city with less success. Early in the War of Independence two forces of American soldiers were despatched against Canada, one under General Richard Montgomery up the Richelieu against Montreal, and the other under Colonel Benedict Arnold through the wilds of Maine against Quebec. The two armies united their resources before the city of Quebec in mid-December, 1775, and commenced a siege that lasted for 154 days throughout the ensuing winter. Montgomery had carried all before him and captured the forts of St. Johns and Chambly, and occupied Montreal and Three Rivers, so Quebec remained the last stronghold of importance held by the British. Arnold had encountered great difficulty in his march, and his expedition was depleted by about a third of its members.

The defense of Quebec was under General Sir Guy

Carleton who had a garrison of about 1,500, about equal to the strength of the attackers, composed of a few regulars, including the Seventh Royal Fusiliers, the Royal Emigrants, a Corps of Seamen, and British and French-Canadian Militia.

Early in the morning of December 31, 1775, the chief assault was delivered by the American troops, bravely led by the commanders in person, Montgomery being killed at Pres-de-Ville, and Arnold wounded at Sault-au-Matelot at the other side of the town. The attack was unsuccessful, many prisoners were captured by the defenders, and the siege thereafter became little more than a blockade, until relief arrived from Great Britain in May, 1776.

The tablet in commemoration of the part taken by the Royal Fusiliers in the defence of the town "throughout the rigors of a Canadian winter, against an active and enterprising enemy" was unveiled in Quebec on Dominion Day, July 1, in the presence of the Governor-General. A detachment of the Canadian Fusiliers of London, Ontario, with two officers from the parent unit in England, represented the Second Royal Fusiliers. The arrangements were made by General Charles F. Winter, secretary of the Dominion of Canada Rifle Association, and formerly a member of the Royal Fusiliers.

### DEHYDRATING CANADIAN FRUIT

The process of dehydration as applied to fruit may be used to save from waste many of the orchard and garden crops. Canada imports more than five million dollars worth of dried fruits each year, including apples, apricots, currents and peaches, besides the tropical fruits which we cannot grow. The Department of Agriculture at Ottawa has conducted investigations covering a period of several years to find out among other things whether fruit dehydrated in Canada can take the place of imported goods of the same class. In report of the committee in charge of the work it is clearly brought out by the excellence of the fruit dehydrated at the stations in British Columbia and Ontario, that when fruit of good quality is used a thoroughly fine marketable product results. It was discovered that dehydrated fruit when properly soaked refreshes almost to the original fresh weight. It was made equally clear that a good product cannot be made from fruit of inferior quality. Dehydration differs from what is generally known as evaporation in that the process is different and there is more moisture left in the stock. The report of the committee, available at the Publications Branch, Department of Agriculture, Ottawa, contains information that fruit growers may well carefully consider.

In a truck for use in hauling poles.

Miss Ethel Christie of Prince Rupert is holidaying at home.

## TRAIN AT SEA

The Westminster Lacrosse team which represents Canada at the Olympic games at Amsterdam, are shown in the above photograph on the boat deck of the Canadian Pacific ship "Empress of Scotland," on which they crossed the Atlantic. In the front row, from left to right, are C. Doyle, J. Stoddard, D. Brunett, H. Wilkie, G. Feeney, H. Stoddard, J. Woods, back row, G. Spring, W. Patchell, J. Vernon, Red Fraser, Bobby Bourne, Ab. Brown, Bob Mackie, Nels Atkinson, Leo Gregory, (captain) and Dan McKenzie (business manager).

In the photograph below is seen Don Carlick, amateur boxing champion, in the gymnasium on board the "Empress of Scotland" sparring with the liner's physical

instructor. Both he and other members of the Canadian Olympic team aboard the vessel frequented the "gym" to keep fit and found the exercises, combined with the sea air, put them in top shape by the time they reached the other side.

Jas. Dyer was in town over Sunday and reported that the tunnel on the Comet had run into a good shoot of ore and he is more pleased with the outlook than ever.

Mr. Anderson, Inspector of tractors for the provincial government, paid a visit to this district last week end and on Sunday accompanied Engineer Pethick to Smithers.

## Does Climate Help Milk

It would be almost idle to suppose that climate plays no part in the production of milk. That extremes of heat and cold have no power on the condition of cows. The unusually high quality of Pacific Milk turns belief into conviction that the mild and salutary climate of British Columbia has more than a little to do with it.

### ADENOIDS

During the summer months, the symptoms caused by adenoids are not as noticeable as in winter. They are referred to now because this is an opportune time for having them attended to. Adenoids are tumour-like growths that develop in the passage between the nose and throat. Very young children may have adenoids. The majority of cases occur in children from eighteen months and six years of age.

The presence of adenoids usually causes what is apparently a chronic cold in the head, with a great deal of discharge from the nose. These symptoms, with snuffles, occur during the winter season. Cough is frequently associated with the condition.

If the growths are large, the child will be a mouth-breather—breathing through the mouth day and night, because the natural breathing-space through the nose is blocked. This gives rise to snoring.

In advance cases, the child has characteristic appearance of the face. The open mouth gives a stupid expression, the nostrils are small and pinched, and the upper lip is thickened. The voice may have a nasal twang. The hearing may be impaired. Bed-wetting may be part of the symptoms.

Complete removal is the only treatment for adenoids of any severity.

Parents who have been advised by their physician to have an adenoided condition corrected in their child should do so. Parents of children who show evidence of adenoids, as described, should have the children examined to find out the condition. The treatment of such a condition is advised because it interferes with the normal development of the child, lowers his level of physical fitness and, if severe, results in a permanent deformity of the mouth and face.

The Omineca Herald is \$2.00 a year.

## FERTILIZER APPLICATION FOR STRAWBERRIES

Most strawberry fields will profit by an application of fertilizer as soon as a good stand of runners has been obtained. From about the middle of August until well into October the newly formed strawberry plants are laying down their fruit buds for next seasons crop. From September 1 to 15 appears to be the most active period of fruit bud formation for eastern Canada and field trials have given us our greatest results at this time when fertilizers have been used. An application of fertilizer, made to the plantation about September 1, will be amply repaid in increased production next season. As research work at Ottawa is demonstrating the value of proportions between the mineral elements of the soil and nitrogen, it would appear advisable to use a complete fertilizer rather than nitrogen alone, unless it is known for certain that the soil is well stocked with the mineral elements. Such a complete fertilizer may consist of the following: 200 pounds nitrate of soda, or its equivalent in some other equally suitable nitrogenous fertilizer, 100 pounds acid phosphate and 50 pounds muriate of potash. The above proportions appear to meet the needs of the strawberry plant satisfactorily and on soils of good tilth could constitute an acre application. On poorer soils simply increase the quantity of each fertilizer in proportion.

This may be applied by broadcasting between the rows and, if a good dry day is selected, may even be broadcasted over the plants, providing that immediately after applying a heavy canvas or some other material is dragged over the foliage to dislodge any fertilizer that may have adhered to it. If this is done the amount of foliage injury is practically negligible.

Mrs. Brummitt was an afternoon tea hostess on Thursday in honor of Mrs. Brummitt, sr., who left this week for her home.

Pheline and Clarence Finley of Rupert are guests at Mr. Murdo Smith's.

## Short Stories Close to Home

Geo. Kerr and Mr. McLaren of Rupert have a group of eight claims adjoining the D. W. Mines at Cedarvale and they are there now doing their assessment work. They have a good showing of nice ore.

Tony Sartori has gone to Terrace to operate the compressor on the Terrace-Usk section of the main highway. There is quite a piece of rock work to be done before the section can be connected up. The rock work will take about two months.

The new grader for the department of public works was taken out to the Beament section on Sunday last.

On Monday morning last Mr. and Mrs. Denno and family left by car on a trip to Los Angeles, Cal. They will be gone about a month and will be back in time to start the season's work in the pole camps. This is the first car from this district to make the trip to California.

Last week Mr. McKechnie of Prince Rupert, northern representative of the Consolidated Mining & Smelting Co of Trail, went up to the M. & M. property on Lagate Creek, out from Pacific. This spring the Consolidated took an option on the M. & M. and are now getting started on development. Mr. Newman of Kimberly, B. C. will be in charge of the development and he has gone up with a number of men.

W. B. Timm, chief of the division of ore dressing, Department of the Interior, Ottawa, arrived in Hazelton Sunday morning to meet Mr. Lay, the resident mining engineer. Mr. Timm pays a visit annually to the larger mills in Canada that are devoted to handling minerals.

W. J. Larkworthy left Saturday for Vancouver on business. He will be away about ten days.

Mrs. Russel and Patsy are guests of Mrs. Peter Smith.

Mr. and Mrs. Browning paid a visit to Prince Rupert returning home Friday night last.

Mr. Greenaway left Monday morning for Vancouver on a short holiday before resuming his school work at Alice Arm. He has spent the summer in this vicinity.

Jean Burns sang a solo in the United church last Sunday night.

Dr. Leonard Wrinch left Saturday on a holiday to Victoria. He was accompanied by his aunt and cousin, Mrs. and Miss Clogg of Toronto.

Amos Wells of Usk was a visitor in this district last week.

## Reforestation!

Much has been said recently about reforestation in British Columbia. The present forest is the result of natural re-forestation when the human hazard was not present to defeat nature.

Natural restocking of cut over lands is now going on, as may be soon almost everywhere, and nature will again re-establish the forests if only fire is kept out.
